

APPENDIX 2 IPC WDS RANKING SYSTEM

The Ranking system is based on the points that athletes can get by participating in IPC Wheelchair Dance Sport recognized competitions of different level.

An athlete can get from 100 down to 1 base point depending on its ranking in a specific competition.

The Ranking system is based on coefficients where the different levels of competitions are taken into consideration. For instance the World Championships has the highest coefficient.

Table of coefficients	
World Championships	10
Regional Championships (European, Asian, Americas Championships)	5
World Series competitions (World Cup, Continents Cup)	5
Regional Series competitions *	3
International competitions **	1

- *** Regional Series competitions** – this is an IPC WDS approved competition with regional participants only (at least 3 countries of the region should take part in the competition).
- **** International competitions** – any International competition (at least 3 countries should take part in a competition). This category is considered for the future. At the moment, it is used for further promotion of the Wheelchair Dance Sport worldwide and engaging more countries in conducting IPC Wheelchair Dance Sport International competitions.

The final score depends on the number of participants attending the competition:
